

APDATEC 144

Features

Very light and flexible hose even at low temperatures. Made from a soft / buna PVC blend and reinforced with an impact resistant hard PVC spiral.

Excellent resistance to hydrolysis, microbial attacks, ozone, UV rays and multiple chemicals.

Extremely smooth internal surface to optimize flow.

Color: metallic gray

Material: soft PVC / Buna reinforced

Spiral: Hard PVC - shockproof

Working Temperature: - 40°C + 60°C

APPLICATIONS

Designed for the suction and transport of liquids in sewer cleaning and agriculture sectors. Excellent on slurry tankers.

Part num.	DN (mm)	T. (mm)	W. (g/m)	B.R. (mm)	W. P. (bar)	V. (m H2O)	C.L. (m)
2016.080-50	80	6,0	1950	250	3	9	30/50
2016.100-50	100	6,5	2700	320	3	9	30/50

Legend

- **T.:** Thickness
- **W.:** Weight
- **B.R.:** Bending Radius
- **W.P.:** Working Pressure
- **V.:** Vacuum
- **C.L.:** Coil length (other sizes available on request)
