

Magnetic Hoist MK250 Flex

To easily lift up heavy sewer manhole covers

This magnetic manhole lifter is a perfect accessory for opening manhole covers, underground hydrants and all types of cast iron covers.

MK250 Flex extends the advantages and features of the SuperStrong 250 kg with a flexible joint between the vertical rod and the magnet, while also integrating the self-supporting mode typical of Mr. Olimpia.

Main Features:

- Multi-purpose hammer
- Anatomically shaped hammer head for easy grip
- Stainless steel handle with rubber grip
- Anti-corodal permanent magnet
- Safety reflective element
- Wood protection for magnet
