

TROLLEY REEL - 3/8" OR 1/4" INLET *with spray gun and pressure gauge*

This reel allows operators to safely perform cleaning and unclogging operations on domestic pipelines using 3/16" or 1/4" hoses (not included).

The pressure gauge allows the operator to check the pressure in the supply hose at any time, indicating when it needs to be released. The trigger gun enables the operator to pressurize the hose only when required and to deliver water to the nozzle with full control.

The quick couplings ensure a fast and secure connection between the gun and the reel. The system is designed to provide maximum ergonomics, safety, and ease of transport. Equipped with four nipples for mounting 1/8" nozzles.

TECHNICAL SPECIFICATIONS

Dimensions	340 x 260 x 445 mm
Weight (without hose)	4,3 kg
Material	Stainless Steel
Pressure Gauge	0 - 400 bar
Inlet	3/8" F swivel
Max. 1/4" hose length	20 mt
Max. pressure	300 bar
